- Cancel button lets operators stop toasting anytime

\* The HTS450 produces up to 400 slices per hour at 120V. The HTS455 produces up to 480 slices per hour at 240V.

# velocity

Ultra-fast toasting performance, from the company that never compromises on quality.

## HTS450

### Heavy-Duty 120V Toaster

**Ultra-Fast, Excellent Results -**

Ceramic elements heat evenly and quickly for a toasting output of 400 slices an hour. Bread guides center bread and hold it upright for even toasting.

**Bread/Bagel Flexibility -** Bread-to-bagel switch lets operators choose their preferred setting for maximum toasting flexibility and convenience.

**Reliability -** To reduce wear and tear, this heavy-duty toaster is equipped with a magnet-based bread lifter with fewer moving parts.

**Safety Features -** Unlike traditional open coil elements, heaters are lined with insulating ceramic for damage resistance and long life. Toaster shuts off automatically, even if toast is jammed.

**Solid-State Temperature Sensor -** Automatically adjusts toast time for consistent toasting results.

**Specifications:**

- Standard: Unit comes with toaster and heavy-duty removable crumb tray
- Controls: 2 bread/bagel switches, 2 browning control dials, 2 cancel buttons
- Slot Width/Depth: 1.3 inches/5.4 inches
- Electrical: 120V, 2200W, 18.3A
- Plug Type: NEMA 5-20P
- Weight: 21 lbs / 9.53 kg
- Warranty: 1 year parts & labor
- UPC: 0 40094 90847 9

## Unique Features

Cancel button lets operators stop the toasting cycle anytime

Bagel/Bun switch toasts the cut side and warms the other

Ceramic plates radiate the heat across the bagel or bread slice for uniform toasting every time

**Speed Toasting -** Breakfast wasn't meant to be enjoyed in a leisurely manner – it's the day's most hectic meal. To keep everyone moving, it's important to toast quickly day after day, slice after slice. Thankfully, these ultra-fast toasters by Hamilton Beach Commercial were made to keep up with the speed of life.
