Combination & Convection Oven Accessories

FAKIRO™ Heat Plates: For all Cadco Half Size & Full Size Convection & Combination Ovens

The exclusive patented FAKIRO™ Heat Plates bake everything in shorter time... for fast baking of Pizza, Breads, and other Snacks / Baked goods

- FAKIRO™ plates provide very fast baking times, up to 50% faster than traditional baking pans. It takes as little as 4-5 minutes to bake a fresh Pizza on the FAKIRO™ plate!
- The plates are manufactured from alloys which provide superior heat storage and produce fast, even cooking of both top and bottom of the food product simultaneously.
- FAKIRO™ plates are designed with burls on the lower surface of the plate, which intensify the heating action.
- FAKIRO™ plates help ovens maintain better temperature stability under normal door opening/closing conditions.

TG450: Full Size Heat Plate
