

MEET THE NEW ELITE FOOD PROCESSOR

The Cuisinart Elite 14-Cup Food Processor is designed with revolutionary new features that are exclusively Cuisinart. The Elite difference includes our new **SealTight™ Advantage System** that allows maximum liquid capacity usage of the work bowl without any leaks and now the blade stays locked in place in the bottom of the bowl with our new **BladeLock** feature. Plus, three nesting work bowls expand your recipe making without having to stop and wash a bowl first. The ultra convenient **6-1 adjustable slicing disc** and **reversible shredding disc** give you 8 ways to slice or shred with two compact discs. That's not all; we even include a **storage case** to keep all your accessories neat, and organized.

Other great features include: **1000 watt peak power motor** and **retractable cord**.

From top to bottom, there is no equal!
