SAVE THESE INSTRUCTIONS

Polarized Plug

This appliance has a **polarized plug** (one blade is wider than the other). As a safety feature, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to modify the plug in any way.

Short Cord Instructions

A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

Longer extension cords are available and may be used if care is exercised in their use.

If an extension cord is used, (1) the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and (2) the longer cord should be arranged so that it will not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

Notes on Crepes and Crepe Batters

Some say "crepe" (rhymes with pep). Others say "crepe" (rhymes with drape). No matter how you pronounce it, it's a delicious "envelope" for almost any filling you can think of.

- An easy, imaginative way to stretch expensive ingredients or everyday leftovers...
- A party appetizer, main course or dessert that will make the meal memorable.
- Use crepes from the refrigerator or the freezer for an instant late-night snack or Sunday breakfast treat.
- An entertaining, do-it-yourself hors d'oeuvres for guests — *they can fill and decorate their own crepes as they please.*
- A tender light alternative to pasta in dishes calling for lasagna, cannelloni, manicotti and even noodles.
- A perfect way to add appeal to children's meals, dinner for one or two and for those "what-shall-we-have nights". . . *far easier to make and serve than your family, guests or even you might believe!*

Quick Ways With Crepes

- Ideal for "instant" entrées, desserts and party treats.
- Fill crepes with heated, canned pie fillings (apple, cherry, blueberry), roll and serve topped with ice cream or whipped cream
- For a delicious companion dish to any meat, fry onions and fresh mushrooms in butter, roll in crepes and keep hot in oven until served.
- Moisten canned corned or roast beef hash with milk or broth until it's spreadable. Spoon onto crepes, roll and brush with melted butter. Bake until hot.
- Leftover crepes make good noodles in soup. Just roll crepes tightly and slice crosswise. Add to soup just before serving.
- Fresh fruit of any kind, combined with yogurt or sour cream, makes a breakfast filling for crepes.
- Crepes folded into quarters can be heated in maple syrup or honey thinned with orange juice.
- Canned tuna or salmon combined with a thick white (cream) sauce can be rolled in a crepe, then baked until hot.
- For extra seasoning, try sliced ripe olives, diced pimento, sliced hard cooked eggs. Add lemon juice to taste.

Non-Stick Cooking Surface

The non-stick cooking surface is not covered by the product warranty. Care must be taken not to scratch or damage the finish with sharp utensils, scouring pads or abrasive cleaners. The surface will provide years of non-stick performance with proper cleaning and care taken during use and storage. *Please save the carton for future storage of your Crepe Maker.*

Instructions For Use

1. Before using this Crepe Maker for the first time, "condition" the non-stick surface by wiping the top with a paper towel soaked in cooking oil, butter or shortening.
2. Prepare one of the batter recipes *an hour or more ahead*. Plan to use up all of the batter (14-16 crepes), since any of the crepes you don't use will keep several days in the refrigerator or a month in the freezer.
3. Pour the batter into a shallow dish or pie pan, either glass, metal or foil, slightly larger than the Crepe Maker. Plug the cord into a 120V AC outlet. Preheat the Crepe Maker until the Ready Light illuminates (after about 3 minutes). This indicates that your Crepe Maker is ready to be dipped into the batter.

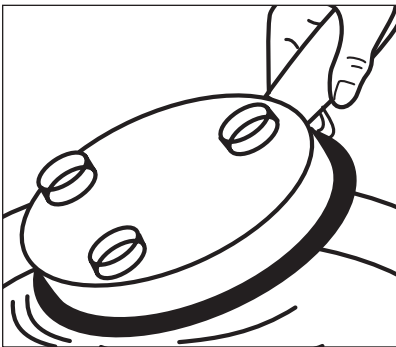

Figure 1

Figure 2

4. When the Light is ON, turn the Crepe Maker over and dip into batter at a slight angle, then flat, to quickly coat the surface, *almost* to the edge. (See Figure 1.)
5. Remove from batter and set on Legs. The Light will go OFF. Dipping and removing should take *no more than 3 seconds*. The Crepe is done when the Ready Light goes ON or when slight browning appears at the edges and it has almost stopped steaming (about 45 seconds). (See Figure 2.)

Instructions For Use *(Continued)*

Figure 2

6. Invert the Crepe Maker over a plate covered with a paper towel or napkin. (Figure 3) If the crepe does not drop off, loosen at the edge with a small plastic spatula or table knife. **NOTE: It is not necessary to brown the other side.**
7. Continue making crepes — *no waiting is required*. Repeat dipping as above. The Ready Light will continue to indicate when the crepe is done.

8. Variations in ingredients or individual preferences as to crepe color will affect the cooking time. In such cases, you may choose to disregard the Ready Light. Also, if you prefer a dryer, crisper crepe, disregard the Ready Light and remove the crepe several seconds longer, when you see it is to your liking.

Experiment with various crepe recipes and cooking times to make fabulous crepes.

9. Stack crepes as you make them. Nothing is needed between them. You can keep crepes moist as you make them by covering the stack with a cloth, paper towel, or foil. This is not necessary for crepes that will be filled and/or sauced and heated.

NOTE: The first crepe or two may be lacy or have holes, particularly if the batter is frothy from blender-mixing or whipping. The last crepe may not stick to the Crepe Maker if the batter is too shallow and the Maker touches the bottom of the dish. You can save any small amount of batter for use at a later time.

10. If crepes stick to the Crepe Maker, check recipe — recipes using oil in place of butter or margarine, or recipes including sugar can stick slightly. You may need to wipe the surface of the Crepe Maker with a bit of butter on a paper towel before the first crepe or between each dipping.
11. If the Crepe Maker is dipped and kept in the batter for too long, the batter will not adhere to the non-stick surface. The dipping procedure should take only a few seconds.

Serving and Hints

Serving

Starting with a pile of flat crepes, you can use them in a number of ways, depending on whether you want a simple sauced or a fancy filled crepe. They can be served cold, warm, or hot, baked, broiled, or crisp-fried in oil. Here are some ideas on handling crepes. See recipes for ways to use various shapes.

Quartered. . . . Crepes are folded into quarters when served plain (or spread with thin filling) and served in sauce, or used "hot off the Pan" for dipping in an appetizer dip.

Rolled. . . . Fill with a few spoonfuls of an entrée or dessert mixture and quickly bake or broil, fill with cold mousse, ice cream, or whipped cream.

Serving and Hints *(Continued)*

Folded. . . Fold into an envelope for small appetizers, ravioli-like entrées, crepe-fried treats of all kinds.

Stacked. . . Stack to make cake (gâteau) or stack in a casserole dish, with appropriate fillings and toppings, served hot or cold.

Keeping Crepes Warm

If you want to serve crepes warm without baking, broiling or frying them, simply cover the stack of crepes as they are made with a foil cover. Or set a rack or perforated screen (such as a wire mesh splatter shield) over a skillet with an inch of simmering water in it.

Freeze or Refrigerate

Crepes will keep up to a month in the freezer or a week in the refrigerator. Simply stack a batch on a sheet of foil or waxed paper, insert into a large plastic food storage bag, preferably with a zip-lock or other tight-sealing plastic bag, pressing out as much air as possible. To use, allow crepes to warm up to room temperature. They will peel apart with just a gentle pull. If you're in a hurry, the stack can be warmed covered with foil on a flat pan in a low-heat oven.

User Maintenance Instructions

Remove plug from outlet and allow to cool. Simply wipe off with a slightly dampened paper towel. Place Crepe Maker in any plastic food storage bag so it remains clean and cooking surface is not subject to abuse when stored. We suggest that you retain the original carton for storage of your Crepe Maker.

Recipes

Basic Batter

We suggest you start with the batter recipes given here — they all “dip, cook, and release” well on your Crepe Maker. They fold or roll well, and keep for weeks in the freezer, days in the refrigerator.

Batter can be used immediately. However, an hour or two standing time will produce slightly more tender crepes. Or, refrigerate batter up to three days for use as needed.

1 cup all-purpose flour
2 eggs
1/2 cup milk
1/2 cup water
1/4 teaspoon salt
2 Tablespoons butter or margarine, melted

Place ingredients in blender container in the order given. Blend 30 seconds, stop and stir down sides. Blend 30-60 seconds until smooth. Or, mix in bowl with wire whisk or mixer, first combining flour and eggs, adding liquid gradually. Beat until smooth; add other ingredients. Makes about 16 crepes.

NOTE: Measure flour and liquid carefully, since consistency of batter is important. (It should be about the consistency of thick, heavy cream.) Spoon flour into 1 cup measure and level off with straight edge of knife or spatula.

Variations:

Richer, More Egg-y Crepes

1 cup all-purpose flour, presifted
3 eggs
3/4 cup milk
3/4 cup water
1/4 teaspoon salt
2 tablespoons butter or margarine, melted

Cornmeal Crepes

Delicious with any Mexican-style or any main dish fillings:

1/2 cup yellow cornmeal
1/2 cup boiling water

Combine, stir until smooth and let cool slightly. Then add:

3 eggs
1/2 teaspoon salt
1/2 cup all-purpose flour, presifted
2 tablespoons butter or margarine, melted

Mix until smooth, then add:

3/4 cup milk and mix until smooth. Stir batter occasionally when dipping if cornmeal tends to settle on the bottom.

Buckwheat Pancake Mix

Makes a flavorful, "wheaty" crepe for entree and fruit filling.

1 cup buckwheat pancake mix
(or 2/3 cup buckwheat flour plus 1/2 teaspoon salt)
1 egg
1 cup milk
3 tablespoons butter or margarine, melted

NOTE: Regular pancake mix can be substituted. Since mixes vary, it may be necessary to add a little more milk.

1 batch crepes (about 16)

1 8 oz. package cream cheese

Seasonings: Use anything that goes well with cream cheese, such as sliced olives, bacon bits, anchovy filet or paste, dash of Worcestershire sauce, jam, horseradish, relish, etc.

Oil

Cut chilled cream cheese into approximately 16 1/2 oz. slices. Place one in the center of each crepe (brown side up). Top with one of the seasonings. Heat 1/4" oil in skillet over medium heat until hot but not smoking. Fry a few blintzes, seam side down, then turn. Watch carefully as they will brown and crisp quickly.
