SUMMIT™

# BLENDERS

91605

91655

### 6 Programmed Cycles with Pulse...

6 programmed cycles give you unlimited options when preparing smoothies, frappés, milk shakes, daiquiris, soups, salsas, and more.

### Quiet Shield™ Sound Enclosure...

Reduces sound of operating blender and maintains the lowest height profile in its class, even when open.

### Easy-To-Read LCD Display...

Displays cycle count and blender diagnostics to allow for easy use and programmability.

### Jar Pad Sensor...

Turns off motor if container is not in place to reduce grinding and "wear and tear."

### Above-Counter/In-The-Counter Options...

The above-counter unit, model 91605, can easily be converted to the in-the-counter unit, model 91655.

### Patented 32 oz. Polycarbonate Container...

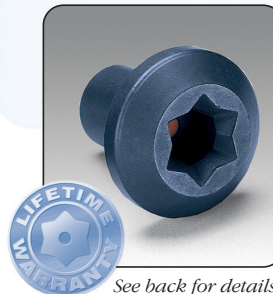

The stackable 32 oz. container saves space and lets you pour from three directions.

Also available without Quiet Shield™ in Models 91603 and 91653

*Lifetime warranty on motor drive coupling*

*Large LCD display is easy to read*

*See back for details.*

*The quietest commercial blender in its class.*

\*The Summit™ motor drive coupling is warranted to be free from defects in material and workmanship for the life of the product. We will, at our option and at our cost, either repair or replace the motor drive coupling demonstrated to be defective in material or workmanship or substitute the motor drive coupling shown to be defective with a part of equal or greater value. This motor drive coupling warranty applies only to Summit™ blenders manufactured after January 1, 2002. Other restrictions apply; see the operation manual for details.
