

Standard Features on all Jura Automatic Coffee Centers

- Internal 16 grams coffee brewing chamber to brew up to 16 oz. of coffee at a time
- Two-step Intelligent Pre Brew Aroma System for maximum flavor and crema
- Commercial grade conical steel burr grinder with 6 fineness settings and ENA with 5 fineness settings
- Stainless steel lined ThermoBlock heating system. Unlike boiler systems, there is never any water remaining in the heating system after brewing
- Easy-to-read, red LED alphanumeric display except ENA with LCD display green, red, yellow and C5 with illuminated symbols
- Bypass funnel for use with pre-ground coffee
- Height adjustable dual coffee spout
- Automatic monitoring systems for: hot water rinse, refill water tank, refill beans, empty internal tray, cleaning cycle, water filter exchange, decalcifying
- Unlimited steam and hot water output
- Removable water container
- Fits underneath standard kitchen cabinets (16" clearing)
- Cleaning tablets and water filter included
- Illustrated operating instructions
- Two year warranty includes free 2-way transport within the United States
- Swiss Made, UL listed
- In-house Customer Service support, Monday – Saturday: 1-800-220-5701

About Jura

Jura machines are 100% Swiss made, with unsurpassed quality and precision. Jura is the innovation leader in automatic coffee centers, bringing new sophistication, quality, versatility and ease of use to brewing espresso-based beverages at home. Jura is sold in over 50 countries and is the global market leader in premium automatic coffee centers.

The Bean-To-Cup Experience

Jura automatic coffee centers produce the finest high-pressure, individually brewed coffee, espresso, cappuccino, latte and latte macchaito with a single touch of a button. Fast and easy to operate, they can grind, tamp, brew and self-clean in less than 60 seconds. Frothing options make it easy to froth or steam milk to perfection.

Jura automatic coffee centers provide more choices in coffee volume and coffee strength than any models. Grinding just before brewing assures the highest yield of flavor and aroma.
